

## Buses and trains

The following is a list of all the bus and train services in the area that are useful for walking. Buses have been cut heavily in recent years, and those that are left are subject to change year-by-year. For up-to-date timetables, consult Traveline South West for buses, and the West Somerset Railway site for trains – or call into a tourist information or National Park centre. The number after the place name is the approximate time in minutes from the first-named terminus. The number of buses daily is in each direction.

Some rural and once-daily buses are small or are intended mainly for college students, and they can get full particularly as they get nearer to their destinations. Don't rely on them if you are travelling as a group: use a pre-booked minibus.

At bus stops, there is often an 8-letter code (e.g. sotadjag). Text this to 84268 for the (timetabled) times of the next three buses.
